PRESS RELEASE
FOR IMMEDIATE RELEASE

DUAL HARNESS™ – UNI-LOOP — A versatile harness for carrying two cameras or binoculars!

The **DUAL HARNESS™ –UNI-LOOP** from OP/TECH USA is a comfortable and versatile way to carry two cameras or binoculars using our unique Uni-Loop Connectors™. Its unique U-shaped neoprene yoke evenly distributes the weight of your gear across your shoulders while absorbing the shock of your movements and eliminating interference between the two cameras. The **DUAL HARNESS™ – UNI-LOOP** is designed to use both of a camera's normal strap connection points so your gear remains safely in the upright position at your sides. This keeps the camera stabilized and secured within your view and grasp. By also maintaining the camera in the upright position, no stress is put on your camera, lens or shoe-mount flash units. Your cameras can quickly and easily be brought to the proper shooting position with the self-gliding connectors. OP/TECH USA's Uni-Loop™ System Connectors offer even more versatility, making it possible to move your gear to other OP/TECH USA straps and harnesses in just a few seconds. Change your carrying options as quickly as you change your mind!

When carrying long lenses, one of the Uni-Loop Connectors™ can be attached to the camera using an OP/TECH USA quick-release plate (sold separately) mounted to the camera's tripod socket. This allows the camera and lens to hang more comfortably so that the long lens settles close to the body. The removable chest strap is comfortable for men and women, and gives you an extra measure of security. With your gear safely attached, you're free to concentrate on taking the perfect photo.

DUAL HARNESS™ –UNI-LOOP is available in black and in two sizes so that you are sure to get a custom fit. Proudly made in the USA, **DUAL HARNESS™ –UNI-LOOP** is sure to be a valued addition to your gear!

OP/TECH USA continues to innovate quality products to meet the ever-changing needs of the avid photographer and outdoor enthusiast. We feel you deserve the very best! For more information about our products, please call 800-251-7815, e-mail info@optechusa.com or visit us online at www.optechusa.com.
