PRESS RELEASE

FOR IMMEDIATE RELEASE

Lens Mount Cap

***NEW SIZES! NOW WE CAN FIT MIRRORLESS LENSES AS WELL AS SLR LENSES!***

***LENS MOUNT CAP*** — Locks out dust and moisture for safe storage!

The **LENS MOUNT CAP** from OP/TECH USA is now available in sizes to fit today's most popular mirrorless camera lenses as well as D-SLRs. It's sure to be a hit with both amateur and pro photographers. It's no ordinary cap.....the benefits and versatility are sure to please. It's designed with an O-ring seal which creates a positive contact with the full perimeter of the lens mount area to really lock out dust and moisture. It also offers a tighter friction fit over traditional caps that come with the lens so that it provides better protection to the lens mount area. This ensures that the **LENS MOUNT CAP** is securely held in place while in storage or transit. The **LENS MOUNT CAP** is available in single or double versions in several lens models for both D-SLR and Mirrorless cameras. The double version is a huge space saver as it enables the photographer to safely and securely lock two lenses together. It's also great for making fast changes of lenses in the field. Keeping gear protected in a compact fashion really helps the active photographer organize and plan for their next photo adventure.

The **LENS MOUNT CAP** is available in the following lens models:

For **DSLR lenses**: Canon, Leica M, Nikon, Pentax and Sony/Maxxum.

For **Mirrorless lenses**: Fuji X, Olympus/Panasonic MFT and Sony E.

Step up to more secure protection with the **LENS MOUNT CAP** from OP/TECH USA. It's the final touch that no lens should be without! Proudly made in the USA!
