Low-profile design is perfect for field use.

SMALL BINOCULAR STRAP – *Ideal comfort for smaller binoculars.*

OP/TECH USA continues their long tradition of developing innovative products for the outdoor recreation industry. As today's binoculars are getting smaller and smaller, less bulky straps are a necessity. OP/TECH USA's **SMALL BINOCULAR STRAP** is the ideal solution! The thin, yet durable neoprene pad measures 1 3/8" in width and offers the perfect amount of stretch and cushioning for all-day comfort and can be worn on either the neck or shoulder.

It fastens to binoculars using OP/TECH USA's exclusive **MINI QD LOOP CONNECTORS™** that are also compatible with several other OP/TECH USA neck/shoulder, wrist and finger straps. Gear can be switched from one style of strap to another in just a few seconds making the **SMALL BINOCULAR STRAP** a versatile part of the outdoorsman's equipment.

OP/TECH USA continues to innovate quality products to meet the ever-changing needs of the avid photographer and outdoor enthusiast. We feel you deserve the very best! For more information about our products, please call 800-251-7815, e-mail info@optechusa.com or visit us online at www.optechusa.com.
