

Tether Instructions

The CIWOTECH tether enables users to attach & connect any smartphone using a charging port hole case to any CIWOTECH breakaway hands-free wearable accessory.

Instructions:

The tether supports loads up to 22 lb (10kg).

Step 1:

Insert phone tether into the case, passing the D-ring through the slot at the bottom of the case.

Step 2:

Insert phone on top of tether

Step 3:

Install outer hard case and external housing.

Step 4:

Attach the CIWO Product's Mini QD Loop Connector to the D-ring on the tether.

Step 5:

Connect the Mini QD Loop Connector to the CIWO Sling or Harness.
